

Virtual Painter Training

Improper painting techniques can result in lost money and product as well as an inferior end result. This interactive, one-day workshop utilizes state-of-the-art virtual reality technology to help spray-paint gun operators refine their technique to improve their transfer efficiency, while helping to produce superior products. Each class is limited to eight registrants.

What will you learn?

- Regulations regarding the use of spray guns—Area Source Rule 6H applicability
- Filtration maintenance
- Spray gun fundamentals

Who should attend?

- Auto body shop employees
- Cabinet makers
- Anyone who uses a spray-paint gun in the course of their work

Five session dates are available:
